RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 398 pages. Dimensions: 9.7in. x 7.4in. x 0.8in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: . . . parts of the cut. The make-ready is then applied and the measurement taken again. The makeready need not be affixed to the cut until the right thickness is assured. The forms need not be sent to press until the cuts have been made ready, thus effecting a material saving in time. Many cut forms need not be further made ready. One of these machines can be seen in operation at the warerooms of John S. Thompson, 340 Sansome street, San Francisco. Mr. Thompson is the Pacific coast representative. STRAITS GAUGE PIN H. II. Strait, of Overland, Mo. , manufacturer of Straits patent lever guide, also makes and sells a gauge pin of which the users speak very favorably. This gauge pin is quite similar to the ordinary gauge pin--has its shape and is inserted in tympan in the same manner--but is held in position by an excellent gripping arrangement, and has nothing about it to injure packing or to interfere with making fine moves. ADVERTISING FOR PRESSWORK Thomas Henry Beatty, , of San Francisco, is starting an active advertising campaign for the securing of presswork from other printers. Mr. Beatty has recently added a Kelly press to his plant and will later probably make more additions. The quality of his work is well known; he has won a reputation for doing an exceedingly high class of platen presswork and has been recognized as a real master printer in that line. His work on the Kelly press...
