

## Organic Chemistry (2nd Edition)

Filesize: 9.43 MB

### ***Reviews***

*A new eBook with a brand new point of view. It really is written in basic words and not confusing. I discovered this publication from my i and dad recommended this book to find out.  
(Miss Annamarie Ebert I)*

## ORGANIC CHEMISTRY (2ND EDITION)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pages Number: 178 Publisher: Higher Education Press Pub. Date :2007-10-01. chemistry experiment is the general level of higher education planning materials Eleventh Five - Organic Chemistry (Second Edition) of the complete book is excellent teaching in higher education by the results of the first prize of Beijing in Beijing quality materials. Organic Chemistry. based on amendments made. Organic Chemistry consists of eight parts: general knowledge of organic chemistry experiments; basic operations. including distillation. fractionation. extraction. recrystallization. sublimation. melting point and boiling point determination. chromatography. etc.; preparation of organic compounds; natural organic compounds extraction; basic properties of organic compounds; organic functional group identification; micro-and small-scale experimental profile; appendix. The difficulty of the experiment in the book are more detailed and critical comments have Questions after each experiment. Appendix in a variety of data and methods for inspection. Organic Chemistry for agricultural and forestry colleges of agriculture. forestry. animal husbandry. medicine. food. fish and other biological disciplines such as undergraduate use. but also for other relevant professional institutions and A F workers. Contents: The first part of a general knowledge of Organic Chemistry. Organic Chemistry Laboratory II rules. the three organic chemistry lab safety knowledge. common glassware About four or five other commonly used equipment profile. laboratory test report preview and the second part of the basic operation of the separation and purification of liquid organic Distillation Experiment I Experiment II Experiment III fractional distillation distillation experiment four solid separation and purification of organic crystals and experimental five-six-sublimation thermal filtration experiment experimental extraction experiments seven eight nine experimental determination of melting point boiling point Experimental determination of ten column chromatography plant pigment chromatography experiments were identified by paper chromatography...
