Accountability Office, 2007 OCLC Number: (OCoLC)156626659 Subject: Veterans -- Services for -- United States. Excerpt: . . . SEI concluded that VBAs management issues would need to be addressed VBA Is Taking Action on as part of the implementation of its overall recommendation. SEIs overall Certain Overall management concerns focused on the project governance, project Management Concerns planning, and conversion of records currently on the BDN to the replacement system. SEI guidance for software development stresses the need for Top Management Included in organizational commitment and the involvement of senior management in Revised Governance Structure 13 overall project governance. In its assessment, SEI noted that because management of the VETSNET project had been assigned to VBAs information technology (IT) group, certain activities critical to the veterans benefits program, but not traditionally managed by the IT group, had not been visible to the projects management. The contractor pointed out that the IT group, business lines, and regional offices needed to share ownership and management of the replacement project through an established governance process and that the project management office should include business representatives. According to SEI, the project needed to establish ownership responsibility, including addressing total system and process operating costs. In response to the assessment, VBA developed a new governance structure for the initiative, which the Under Secretary for Benefits approved in March 2006. In the new structure, the VETSNET Executive Board that had been in place was expanded and reorganized to serve as a focal point and major governance mechanism for the replacement initiative. A Special Assistant (reporting directly to the Under Secretary) was appointed to coordinate and oversee the initiative as...
