

The Pearly Gates of Cyberspace A History of Space from Dante to the Internet

By Margaret Wertheim

W. W. Norton & Company. Paperback. Book Condition: New. Paperback. 336 pages. Dimensions: 8.2in. x 5.5in. x 0.8in. Cyberspace may seem an unlikely gateway for the soul. But as science commentator Margaret Wertheim argues in this marvelously provocative (Kirkus Reviews) book, cyberspace has in recent years become a repository for immense spiritual yearning. Wertheim explores the mapping of spiritual desire onto digitized space and suggests that the modem today has become a metaphysical escape-hatch from a materialism that many people find increasingly dissatisfying. Cyberspace opens up a collective space beyond the laws of physics a space where mind rather than matter reigns. This strange refuge returns us to an almost medieval dualism between a physical space of body and an immaterial space of mind and psyche. Illustrations This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
